

## Up to 128 channels in one PC

If you need **multi-channel test setups** for your **digitizers and AWGs**, we can help! With our "Star Hub" module, up to **16 PCIe-cards** can be perfectly synchronized to create **systems with up to 128 channels in one PC**. It's your choice to use pure **digitizer inputs**, pure **AWG outputs** or even a **mixture of both**, all sharing **the same clock and trigger**.
