Don't let a virus shut you down - our digitizers let you work from anywhere!

Remote testing and monitoring is easy with Spectrum's **digitizerNETBOX** products. Via **Ethernet/LXI**, these test instruments can be controlled from any PC placed in your **lab**, the **office**, anywhere in the **company network** or even your **home**.
Choose from **over 70 different models** offering sampling rates from **5 kS/s to 5 GS/s** with **8 to 16 bits** and **2 to 48 channels**. All units come with **SBench 6 Professional**, our software tool that displays, analyzes and reports results while also giving you complete instrument control.

With our **Parameter Search Engine**, you will find the perfect fitting digitizerNETBOX for your application:

See our Parameter Search

For **over 30 years**, all Spectrum products have been **"Made in Germany"**.
We offer an **industry-leading 5 years warranty -** for your peace of mind!
