

We are the LOW-NOISE experts

When it comes to working with **single atoms**, you need **extraordinary precision** and **extreme low-noise signals**. Scientists and engineers around the world use **digitizers & generators by Spectrum Instrumentation** in their research on **individual atoms**, giving us feedback about the **excellent quality** of our instruments. Check out some reports of today's leading research in the fields of **Quantum Science**, the **Atomic Force Microscope** and **Atmospheric Research**:

[Quantum research \(University San Diego, USA\)](#)

[Quantum research \(University Innsbruck, Austria\)](#)

[Quantum research \(University Stuttgart, Germany\)](#)

[Atomic Force Microscope \(University Newcastle, Australia\)](#)

[Atmospheric Research \(Leibniz-Institut, Germany\)](#)

For **over 30 years**, all Spectrum products have been **"Made in Germany"**.
We offer an **industry-leading 5 years warranty** - for your peace of mind!
